COPYRIGHT LAW

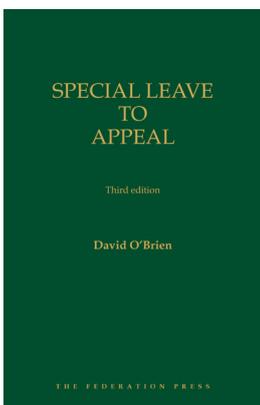

David Brennan

'[T]he author of this work bravely undertook a herculean task. The book, in covering an immense breadth of frequently difficult subject-matter so compactly, but accurately, represents an immense achievement.'

– from the Foreword by *The Hon Julie Dodds-Streeton QC*

Copyright Law offers a comprehensive resource for practitioners, students and those in copyright-dependent industries. It deals with all the private law regimes within the *Copyright Act 1968* (Cth) – proprietary copyright, technical protection measures, performers' rights and moral rights. The work has a strong focus on Australian jurisprudence and law reform and provides expositions of complex matters within their treaty law, litigious, technological, historical or political contexts. Particularly thorough treatments are given to areas that frequently present difficulty in practice, such as implied licences, title, Copyright Tribunal jurisdiction, the interface with design law and pecuniary remedies. The work also provides an explanation of territoriality, private international law principles relating to copyright and jurisdictional attachment.

SPECIAL LEAVE TO APPEAL, 3rd ed

David O'Brien

'David O'Brien's third edition provides those involved in special leave applications with very useful practical guidance as to the making and conduct of such applications. But it is much more than that, it is a substantial historical work.'

– from the Foreword by *David Jackson AM QC*

This much anticipated third edition of *Special Leave to Appeal* for the first time incorporates the significant 2016 amendments to Part 41 of the *High Court Rules 2004* (Cth). These amendments established, among other things, that the determination of most applications is now on the papers, without an oral hearing. To obtain special leave to appeal it is necessary to establish not only an error in the lower court's judgment, but also some special feature of the case which warrants the High Court's attention. There is no exhaustive list or comprehensive definition of what is 'special'. That is largely to be gleaned from the High Court's reasons for refusing special leave. This book is as comprehensive a statement of the law and practice of applying for special leave as there is. With reference to over 2000 decisions and relevant statutory provisions, this work is an invaluable aid to preparing to make or respond to an application.

NEW AND UPCOMING

CURRENT ISSUES IN COMPETITION LAW

Vol 1: Context and Interpretation + Vol 2: Practice and Perspectives

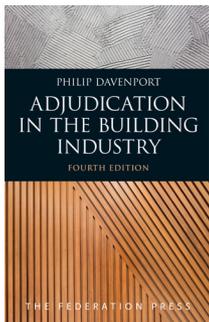

Michael Gvozdenovic, Stephen Puttick (eds)

This major new two volume work on competition and consumer law is avowedly concerned with debates and issues of contemporary importance. The chapters provide perspectives from the judiciary, the regulator, the practising profession and the academy. Volume I includes a foreword by the Hon Chief Justice Allsop AO while Volume II includes a foreword by the Hon Justice Perram. The volumes are essential reading for those called on to determine competition matters, lawyers practising in competition and commercial law, and those teaching and researching the subject.

THE LAW OF TRACING

Mohammad Jaamae Hafeez-Baig, Jordan English

This book provides a comprehensive account of the law of tracing in Australia and England. It offers clear answers to fundamental questions such as 'what is tracing?' and 'does tracing create new rights?', while also explaining in detail the tracing rules and the application of those rules in hard cases. The book also engages with a number of controversies that have arisen as a result of recent cases and academic work. Each issue is analysed from first principles and from authority, making the book an essential reference for anyone advising on cases involving tracing, or wishing to understand the subject better.

PANDEMICS, PUBLIC HEALTH EMERGENCIES AND GOVERNMENT POWERS

Belinda Bennett, Ian Freckelton (eds)

This book brings together leading Australian legal scholars to analyse the legal dimensions of the pandemic, and the role of law in responding to its impact. As a health crisis the COVID-19 pandemic has obviously had a huge impact on the health system. However, social distancing and other public health measures have also brought major changes at a social and economic level.

STEWART'S GUIDE TO EMPLOYMENT LAW, 7th ed

Andrew Stewart

In this new edition, incorporating changes up to August 2021 (including *WorkPac Pty Ltd v Rossato* [2021] HCA 23), the author brings his usual clarity to a complex subject. It explains recent amendments to the *Fair Work Act*, changes to modern awards following the Fair Work Commission review and new case law. Other topical updates include pandemic leave, vaccination requirements, working from home, standing down employees and freedom of expression on social media.
